SOFTWARE TESTING REPORT

Version of Software Program: Konserted 2.5

Testing Dates: January 10–12

Number of Participants: 8

Software Testing Overview: Participants were asked to complete a series of tasks testing the functionality of the revised Konserted interface. In task number 1, participants searched for a concert in a designated area. In task number 2, participants searched for new friends on the site. In task number 3, participants invited friends to a concert. In task number 4, participants posted concert reviews, photos, and videos.

Initial Findings: Task number 3 proved the most challenging, with three participants unable to complete it in under two minutes. A potential cause for this difficulty may be the choice of icons in the menu bar. Clearer, more intuitive icons could make this task easier to complete for participants.

Dear Ms. Atiyeh,
To follow up on our phone conversation earlier today, I would like to extend to you a formal written invitation to speak at the eighth annual Mutamark conference, scheduled to take place this year from 17 to 20 September in Zagros. Because you drew a sizeable crowd when you appeared at the conference in the past, we will be making special arrangements for your visit this time. Please e-mail me to confirm your acceptance and to let me know more about your audiovisual requirements. We can provide overhead projection for still images if you will be using them again.
